

RV & Large Vehicles Bridge, Tunnel and Ferry Restrictions

Propane Gas Prohibited	
Alaska & British Columbia	The RV's propane tank must be turned off while the vehicle is on a ferry. Terminal agents will seal bottled gas containers prior to boarding. Small portable containers of fuel (5 gallons or less and limited to 2 containers) must be properly sealed, labeled with owner's name for ID and stored by Alaska Marine Highway System officials while in route. For more information, visit www.ferrytravel.com/alaskarv.htm
Baltimore, MD	LP gas containers in excess of 10 pounds per container are prohibited on the I-95 tunnels of Baltimore Harbor and Fort McHenry. Smaller containers are allowed in quantities of no more than 10 pounds. The Francis Scott Key Bridge (I-695, the Baltimore Beltway) is a convenient alternative route for crossing Baltimore's Harbor.
Boston Harbor, MA	LP gas is prohibited in the Callahan, Prudential and Dewey Square Tunnels.
New Jersey/New York	LP gas is prohibited in the Holland Tunnel between Manhattan and Jersey City; the lower level of the George Washington Bridge Expressway (I-95 South) between Manhattan and Fort Lee; and in the Lincoln Tunnel between Manhattan and Weehawken.
New York	LP gas is prohibited between Manhattan and Brooklyn in the Brooklyn Battery Tunnel and between Manhattan and Queens in the Queens Midtown Tunnel.
Texas	LP gas is restricted in the Washburn Tunnel between Pasadena and Galena Park on the Houston Ship Channel. Vehicles are limited to a maximum of two 7 ½ gallon containers (30 pounds each of gas) or one 10 gallon container (40 pounds of gas) of DOT approved type, with shutoff valve at discharge opening. Valve must be closed when in tunnel. LP gas as vehicle fuel is prohibited.
Virginia	RVs may cross the Hampton Roads Bridge Tunnel, the Chesapeake Bay Bridge Tunnel and the Norfolk-Portsmouth Tunnel provided that the LP tanks don't exceed two 45 pound capacity tanks or two permanently mounted containers with a maximum total capacity of 200 pounds. Tanks must be completely shut off and securely attached.
Washington Ferries	Regulations require that you shut off and tag all propane tanks prior to boarding, unless they are the primary fuel source for your vehicle. Any number of full or empty tanks of propane may be transported in a vehicle, provided that the total weight does not exceed 100 pounds.
Canada	In most provinces, the law dictates that all appliances and pilot lights must be turned off and cylinder valves closed while traveling.
Quebec	An RV can transport a maximum of two bottles of flammable gas each with a capacity of 46 liters (12 US gal./54 lbs.) through tunnels and bridge-tunnels.

Trailers Not Permitted	
California	Contact the California Highway Patrol before entering a snow area; depending on conditions, chains may be required and pulling trailers may be prohibited. Trailers also may be barred due to high winds, blowing sand etc. RVs over 20 feet long may experience difficulty in negotiating hairpin turns on State Highway 89.
Connecticut	Trailers are not permitted on the Wilbur Cross and Merritt parkways. Trailers are prohibited from the Connecticut River ferry between Chester and Hadlyme.
Illinois	Trailers are not permitted on boulevards in and around Chicago. If traveling from Illinois to Iowa, route around the bridge between Fulton, IL and Clinton, IA.
Iowa	Trailers are prohibited on the bridge between Clinton, IA and Fulton, IL.
Massachusetts	Trailers are not permitted on Memorial Drive in Cambridge and Storrow Drive in Boston along the Charles River.
Montana	On Going-to-the-Sun Road in Glacier National Park, all vehicles and combinations of vehicles over 21 feet long and 8 feet wide (including mirrors) are prohibited between Avalanche Campground and the Rising Sun picnic area parking. Vehicles over 10 feet in height may have clearance issues with rock overhangs driving west from Logan Pass to the Loop.
New Jersey	Vehicles longer than 55 feet aren't allowed on the Garden State Parkway. Call 908-247-0900 for specific towing regulations for the NJ Turnpike.
New York	Motorhomes and trailers are not permitted on most Parkways including the Belt Parkway and Taconic State Parkway.

Ferries- Many ferry lines charge extra for RVs. Ask about surcharges before reserving space on a ferry. It is important to ask members about their RV's height, length and width including trailers, overhangs and towed vehicles. Most vessels can accommodate vehicles up to 60 feet in length. An additional premium may be charged for RVs that exceed the standard width rate of 8 feet 5 inches, with the mirrors folded in.

Important Notes:

-The information in this summary is not all inclusive, it is limited only to the busiest bridges, tunnels and ferries in North America. AAA recommends visiting the state's DOT website for more details.
